EXPRESS COMPANY TAX

Chapter 180 of the Revised Codes of Montana of 1921, enacted by the Legislature of 1917, and amended by the Legislature of 1921, provides for a tax in an amount equal to 4 per cent of the gross receipts of such express company for business done within the state. All licenses collected under the provisions of this act shall be credited to the general fund of the state.

	1933	1934
Railway Express Agency	\$14,102.44	\$13,543.97

SLEEPING CAR TAX

Chapter 61 of the Session Laws of 1923 provides for a tax equal to $1\frac{1}{2}$ per cent of the value of said sleeping car company within the state. The law provides the manner of determining the valuation for assessment purposes. The Board shall determine the value of the capital stock of such company invested or used in its business. It shall then divide the amount so obtained by the total car mileage on railroads over which the company did business to obtain the value per car mile, and shall then multiply the value per car mile thus obtained by the total number of car miles within the state. The result shall be taken and considered as the actual value of the property of such company subject to the tax in this state. All taxes collected under this provision shall be credited to the general fund of the state.

This chapter repealed Chapter 181 of the Revised Codes of Montana of 1921, enacted by the Legislature of 1911, which provided for a license tax of \$100.00 for each car operated in the state. The sleeping car company contended that this law conflicted with the Interstate Commerce Commission Laws, and although suits were instituted to collect this tax, the result has been that no tax has ever been collected under it, and the first taxes ever paid in Montana by a sleeping car company was in 1923, under the provisions of the present law.

	1933	1934
The Pullman Sleeping Car Co.	\$18,930.15	\$17,823.69

CORPORATION LICENSE TAX

Chapter 166 of the 1933 Laws of Montana amended the Revised Codes of 1921 by increasing the corporation license tax from one per cent (1%) to two per cent (2%) of the total net income, also eliminating the arbitrary deduction of \$2,500.00 and imposing a minimum tax of \$5.00.

Since the enactment of the Montana Corporation License Tax Law, the following sums have been determined:

TOTAL.....		\$5,070,182.68

The work of the Corporation License Tax Division is carried on by an auditor and one stenographer. Due to the change in the law, especially the imposing of a minimum tax on all corporations engaged in business within the state, the amount of correspondence was greatly increased. Taxes were assessed against 2,854 corporations for the fiscal year ending June 30, 1933, and 3,379 corporations for the fiscal year ending June 30, 1934, as compared with 729 and 561 for the two previous years when the law did not provide for a minimum tax.

A balance sheet audit is made of every corporation return received. Many returns require correspondence because of lack of information or errors, while some demand personal investigation and field audits. During the year ending June 30, 1923, additional taxes of \$9,808.30 were collected through office and field audits. \$15,254.30 in additional taxes were collected during the fiscal year ending June 30, 1934.

The average yearly corporation license tax assessments for the past eighteen years, or since the law has been in force, have been \$281,676.82, with the average cost of administration less than two per cent (2%).

During the past eight years an average of approximately \$16,000.00 a year has been collected in additional taxes as the result of office and field audits. This amount might be easily doubled, and with the return of normal business conditions multiplied several times, by an appropriation sufficient to permit the employment of a full time field auditor in the corporation license tax division.

It is unnecessary to emphasize that field auditing work by a competent auditor would be profitable to the state in increased taxes collected. Moreover, the educational value of field auditing service is very important. Taxpayers are more ready to report income when they appreciate that others are being given a thorough audit and compelled to live up to the law. Also, much of the income not reported or inadequately reported is due to no intentional violation of the law but to a misunderstanding of it.

It is very obvious that with only one auditor and a stenographer in the corporation license tax division, with over four thousand returns to be audited each year and with all the correspondence and office detail to be looked after, very little time is afforded to make necessary trips out into the field.

There are sections in the state in which no field auditing of any sort has ever been done. There are many large foreign corporations doing business within the state whose books should be audited for the purpose of ascertaining if this state is receiving taxes on the proportionate share of income. What field auditing has been done has been upon corporations whose returns look suspicious from an office audit. Sometimes a lead has been received in a report of some third party. It is submitted that this hit or miss policy is inadequate and that field audits should be extended so as to cover at least the largest taxpayers every three years, or within the period when the taxpayer's return is open to audit.

OIL PRODUCERS LICENSE TAX

Chapter 186 of the Revised Codes of Montana of 1921, enacted by the Legislature of 1921, provided for a license tax in an amount equal to 1 per cent of the total gross value of all petroleum and other mineral or crude oils produced within the state, the proceeds from this act to be deposited to the credit of the general fund of the state. The Legislature of 1923 amended this law, raising the tax to 2 per cent and changing the distribution of the funds. Pursuant to Chapter 119, Laws of 1927, receipts are now distributed as follows:

- 25% to the County and District High Schools of the state, based on the aggregate number of day's attendance.
- 25% to the state common school equalization fund.
- 50% to the state general fund.

CARBON BLACK LICENSE TAX COLLECTED BY THE STATE
BOARD OF EQUALIZATION

Chapter 97, Laws of 1929, Section 2. "Every person engaged in or carrying on within this state the business of producing or manufacturing for sale, profit or use the commodity or substance known as "Carbon black," hereinabove defined, must, for the year 1929, and each year thereafter, when engaged in or carrying on any such business in this State, pay to the State Treasurer for the exclusive use and benefit of the State of Montana, a license tax for engaging in and carrying on such business in an amount equal to one-eighth ($\frac{1}{8}$) of one cent (1c) for each pound of carbon black produced or manufactured by such person within the State during the year."

	TAX
July 1, 1930 to December 31, 1930	\$337.16
January 1, 1931 to June 30, 1931	165.66
July 1, 1931 to December 31, 1931	60.51
January 1, 1932 to June 30, 1932	
Total	\$563.36

No carbon black manufactured for the years 1932, 1933 and the first six months of 1934.

ELECTRICAL ENERGY TAX

Under the provisions of Chapter 51 of the Extraordinary Session of the Twenty-third Legislative Assembly (1933-34) a license tax was levied upon persons and corporations engaged in business of generating electrical energy either through water power or by any other means.

The rate of tax is $\frac{3}{8}$ of 1% of the gross amount of money received on account of sales of electricity and electrical energy in this state.

There are 26 such companies licensed under the provisions of this act.

The amount of money collected up to the close of the fiscal year, June 30th, 1934, amounted to the sum of \$6,141.21 and the amount collected since the law became effective, April 15th, 1934, to December 1st, 1934, amounts to the sum of \$23,647.71.

NATURAL GAS DISTRIBUTORS TAX

Chapter 180 of the Laws of 1933 provided for a license tax upon persons and corporations engaged in the business of distributing to the public within this state, natural gas, produced or not produced within this state and on natural gas produced within this state conveyed through a pipe line to a point outside this state. The rate fixed was $\frac{1}{8}$ of one cent per one thousand cubic feet of gas distributed.

This was amended by Chapter 52 of the laws of the Extraordinary Session of the Twenty-third Legislative Assembly so as to increase the rate of tax to $\frac{3}{8}$ of one cent per one thousand cubic feet of gas distributed.

There are 19 such companies reporting and the amount of tax determined up to June 30th, 1933, amounted to the sum of \$6,454.21 and from July 1st, 1933 to June 30th, 1934, the amount determined was the sum of \$24,144.11.

The companies engaged in the business of producing natural gas within this state and transporting same through a pipe line to a point without the state have refused to pay the tax upon the grounds same violates the federal constitution as being a burden upon interstate commerce and suits have been instituted in the courts to determine this constitutional question.

CONTRACTORS LICENSE TAX

Under the provisions of Chapter 55 laws of the Extraordinary Session of the Twenty-third Legislative Assembly (1933-34) a license tax was imposed upon all persons and corporations engaged in the business of contracting.

The act defines the word "contractor" as follows:

"The word 'contractor' means and includes any person, firm or corporation accepting or offering to accept orders or contracts for doing any work on or in any building or structure, requiring the use of paint, stone, brick, mortar, wood, cement, structural iron or steel, sheet iron, galvanized iron, metallic piping, tin, lead, electric wiring, or other material, or any other building material; or who shall accept or offer to accept contracts to do any grading, paving, curbing or other work on sidewalks, street, alleys, or highways, public or private property, using asphalt, brick, stone, cement, concrete, wood, or any composition; or who shall accept or offer to accept an order or contract to construct any sewer of stone, brick, terra cotta, or other material, or who shall accept any other work which shall require labor or any other work to be done by labor other than solely by the personal labor of the person contracting to do such labor, or who shall construct or aid in the construction or improvement of any project, enterprise or undertaking by contract."

A minimum annual license fee of \$1.00 is required of all contractors and in addition a further amount, based upon gross receipts, graduated from \$15.00 to \$400.00.

There have been 709 contractors licensed under this act and the total tax collected since the enactment of the law up to December 1st, 1934, amounts to the sum of \$4,201.00.

TELEGRAPH COMPANIES LICENSE TAX

Under the provisions of Chapter 41, laws of the Extraordinary Session of the Twenty-third Legislative Assembly (1933-34) a license tax was imposed upon persons and corporations operating a telegraph business within this state.

The tax rate is 1% of the gross income derived from Montana intrastate business of such companies. The total tax collected since the enactment of this law (January 16th, 1934 to December 1st, 1934), amounts to the sum of \$371.56.

INHERITANCE TAX DIVISION

During the last biennial period the receipts from inheritance taxes totalled \$341,082.70. This amount is somewhat below the average for a number of years prior. This can be readily understood by considering the sources from which the tax is derived. From a great many of the smaller estates, by reason of deductions and exemptions allowed by law, no tax is due. There have been but one or two estates of any considerable size closed and the tax paid within the last biennial period. Usually in the larger estates quite a large proportion of the assets consist of stocks, bonds and other property with a fluctuating value and assets of this nature during the period under consideration have been at a very low value thereby reducing the gross value of the estate. Not a few of these estates from which a large tax could reasonably be expected have proven to be insolvent.

The two year period covered by this report is the first such period since the inheritance tax law was passed during which we received no inheritance taxes from non-resident estates holding stocks and bonds of Montana corporations, mortgages on Montana real estate, bank deposits in Montana banks, and other intangibles. On January 4, 1932, the U. S. Supreme Court reversed its former decision and we were not after that date permitted to tax assets of this nature belonging to non-resident decedents. Quite a portion of inheritance taxes were derived from this source. During the 18 months of the biennial period immediately previous to the one covered by this report, from the beginning of the last biennial period up to January 4, 1932, the date of the U. S. Supreme Court decision, upwards of \$80,000 was collected from non-resident decedents owning such intangible personal property.

At the Special Session of the Legislature, 1933-1934, an act was passed doubling the rates for inheritance tax purposes. The increased rates under the new law were in force only a little over five months of the period to which this report applies, during which time no estate of a large amount was closed and the inheritance tax paid. For that reason the inheritance tax receipts have as yet been affected but little by reason of the increased rates.

Between July 1, 1932 and June 30, 1934, 7241 separate reports were received. The total cost of collection including salaries and all inheritance tax supplies furnished all the counties in the state is less than 2% of the total collected.

FREIGHT LINE TAX

Chapter 165, Revised Codes of Montana, 1921, imposed a tax of 5 per cent upon the total gross earnings of freight line companies from all sources within the state. Chapter 185, Laws of 1925, reduced the tax to the equivalent of 2 per cent of such gross earnings, and Chapter 75, Laws of 1931 set the rate back to the original 5 per cent, whereupon most of the larger taxpayers paid under protest, alleging the law unconstitutional. Their contention was upheld by the Montana Supreme Court in a decision handed down May 13, 1933. (*Fruit Growers Express v. Brett*, State Treasurer, 94 Mont. 281.)

The total amount of tax assessed against the various companies for the year 1931 was \$68,582.98, of which \$14,436.31 was paid without protest, \$49,204.86 paid under protest, and \$1,941.81 not paid at all. Efforts made to collect this delinquency met with little success because the law was under fire. The amount paid without protest, \$14,436.31, was turned over to the state treasurer and became a part of the state general

fund. The amount paid under protest, \$19,204.86, was likewise turned over to the state treasurer and placed in the protested tax fund, from which it was refunded to the taxpayers upon final determination of the lawsuit.

The total amount assessed in 1932 was \$52,463.63. Due to the fact that the District Court of Lewis and Clark County had decided against the State before taxes were due, collections were small. Only \$2,736.77 was paid without protest, and only \$6,700.42 paid under protest. The balance, \$43,026.44, was not paid. The amounts collected were turned over to the state treasurer and were disposed of in the same manner as the 1931 taxes.

No freight line tax has been collected subsequent to the Supreme Court decision, for Montana has had no valid freight line tax law since that date. The situation is one that deserves your early attention and remedial action, and in order to facilitate such action we are preparing a bill which will be submitted to your Honorable Body or to the proper committee early in the session. We believe you will find it of assistance in drafting the bill which you, in your best judgment, will enact into law.

PERSONAL INCOME TAX

The Twenty-third Legislative Assembly (1933) enacted a graduated and progressive personal income tax law, the tax to be first levied and paid in the year 1934 with respect to taxable income for the calendar year 1933 (Chapter 181, Session Laws 1933). At the same session the Assembly submitted a constitutional amendment to the people to be voted upon at the general election 1934. This proposed amendment carried by a vote of 106,010 votes for the amendment and 60,912 votes against the amendment.

Prior to the election upon the constitutional amendment, the law was attacked as being violative of our constitution in the case of O'Connell v. State Board of Equalization (95 Mont. 91). The law was upheld by the supreme court.

The rate of tax is as follows:

- (a)—On the first \$2,000 of net income, or any part thereof, at the rate of one per centum
- (b)—On the second \$2,000 of net income, or any part thereof, two per centum
- (c)—On the third \$2,000 of net income, or any part thereof, three per centum
- (d)—On any net income in excess of \$6,000 at the rate of four per centum

The Extraordinary Session of the Twenty-third Legislative Assembly (1933-34) amended the law so as to provide for an additional graduated surtax (Chapter 40, Extraordinary Session 1933-34).

This amendment was questioned in the case of Mills v. State Board of Equalization, 97 Mont. 13, 33 Pac. (2d Ed.) 563, and this board was restrained by a permanent injunction from enforcing the provisions of the surtax amendment.

The act provides for a tax levied upon the income of natural persons, partnerships and fiduciaries and does not include corporations; corporations being required by other statutes to pay a license tax measured by their net income at a flat rate of 2% without exemption.

During the year of 1931 there was assessed on 15,675 individuals and partnerships, income taxes in the amount of \$186,342. Of this amount \$8,519.09 was refunded to the taxpayers because of the fact that the surtax was held to be unconstitutional. \$1,567.41 is still uncollected, leaving as a net collection, as of December 1, 1931, the sum of \$176,313.47. However, these figures do not clearly reflect the tax that will be eventually collected on the income for 1933 for the reason that many large taxpayers took as deductions in the computation of their tax, losses on the sale of securities, basing their losses on the difference between the cost and selling price.

The State Board of Equalization, in their interpretation of the law, has promulgated a regulation holding that the value as of January 1, 1933, which was the basic date of the law, is also a factor.

The District Court of Missoula County, in the case of A. N. Whitlock versus the State Board of Equalization has decided in favor of the State Board of Equalization. If the Supreme Court should sustain the lower court's decision this will mean a substantial increase in 1933 taxes payable.

The following schedule shows the classes of taxpayers, the gross tax paid by each class, and the average tax paid by each class as of the fiscal year ending June 30, 1934.

CHAIN STORE DEPARTMENT

Under the provisions of Chapter 155 of the Twenty-third Legislative Assembly this board was directed to to administer the so-called "Chain Store License Act."

Under this Act each and every place of business where goods, wares, merchandise or petroleum products are sold is defined as a "Store" and is required to have a license. The fees set up in the act are as follows:

For one and two stores under the same management, the fee is \$2.50;

For the third and fourth stores, the fee is \$15.00;

For the fifth and sixth stores, the fee is \$20.00;

For the seventh, eighth, ninth and tenth stores, the fee is \$25.00, and all stores in excess of ten, \$30.00.

In addition to the above fees, a filing fee of \$.50 is required for each store. The act also contains provisions that a half year license may be issued for a place of business opened after the first of July.

As a matter of convenience, the licenses issued to the above groups of stores have been designated as A, B, C, D, & E. This act went into force and effect the first day of July, 1933, and during 1933 this board issued licenses as follows:

A licenses issued	5,673
B licenses issued	151
C licenses issued	91
D licenses issued	108
E licenses issued	594

The above numbers include cancellations and assignments. The board collected for the above licenses \$22,276.95, of which amount \$8,249.50 was paid under protest.

For the period beginning January 1st and ending June 30th, 1934, this board has issued the following licenses:

A licenses issued.	5,702
B licenses issued.	140
C licenses issued.	80
D licenses issued	106
E licenses issued	542

For the above licenses there was received \$10,150.00, of this amount \$14,821.25 was paid under protest.

A number of cases are pending in the courts attacking the constitutionality of this act.

CIGARETTE DEPARTMENT

By the action of the Extraordinary Session of the Twenty-third Legislative Assembly, this board was directed to administer the collection of the cigarette license fee

The former cigarette license act had been administered by the County Treasurer of the various counties of the state and the fee was in the sum of \$25.00 per annum. Under the provisions of the amended act, the fee was reduced to \$5.00. Commencing January 3rd, 1934, this board collected up to and including the 30th day of June, 1934, \$9,995.00.

BEER DEPARTMENT

Under the provisions of Chapter 106 of the Laws of the Twenty-third Legislative Assembly, commonly known as the Montana Beer Act, this board was designated as the authority for the administration of such act. This act was approved on the fourteenth day of March, 1933, and became effective upon the same date as the federal statute legalizing the sale and distribution of 3.2 beer, to-wit: the 7th day of April, 1933.

In the above mentioned act, licenses and fees therefor were designated as follows:

	Amount of Fee	Number Issued
Brewer	\$ 750.00	6
Wholesale	150.00	267
Retail	300.00	394
Hotel	125.00	46
Restaurant	100.00	199
Club	50.00	60
Common Carrier	25.00	34

The act also provided that a tax of \$.50 per barrel of 31 gallons be levied upon each and every barrel of beer sold in the State of Montana. Under this act, this Board collected a total of \$228,863.90 up to and including the 31st day of December, 1933. Of this amount \$45,263.90 was derived from barrelage tax and \$183,600.00 was from license fees.

During the Extraordinary Session of the Twenty-third Legislative Assembly, the Montana Beer Act was amended, particularly in the amount of tax levied and the various kinds of licenses to be issued. Under the amended act the annual license fees were as follows:

	Amount of Fee	Number Issued
Brewer	\$ 750.00	8
Wholesale	300.00	81
Retail	200.00	1,068
Club	50.00	42
Common Carrier	25.00	37
Special Licenses	10.00 per day, minimum fee of \$25.00	11

The barrelage tax was raised from \$.50 to \$1.00 per barrel of 31 gallons upon all sales in Montana.

The above fees aggregated the amount of \$247,235.00 and barrelage taxes were paid in the sum of \$79,399.14, a total of \$326,634.14, received up to June 30th, 1934.

Distribution of Funds

Under the provisions of the beer act of 1934 this Board was required to allocate $\frac{1}{2}$ of the taxes and license fees to the General Fund of the State of Montana and the remaining one-half to the Emergency Relief Fund and in compliance therewith this board, up to the time that this report went to press, had allocated to the General Fund \$226,277.66 and a like amount to the Emergency Relief Fund.

Up to the time of this report going to press this board had collected under the provisions of the act of 1934, the sum of \$464,532.27, of this amount \$199,477.27 was received from the barrelage tax and \$265,055.00 from the licenses.

GASOLINE LICENSE LAW

Chapter 92, Laws of 1929, provides for a license tax equal in amount to 5 cents per gallon on all gasoline manufactured and sold within the state, and on all gasoline shipped into the state.

Seventy-five per cent of the money derived from this license tax is credited to the State Highway Fund, and twenty-five per cent to the Gasoline License Draw-back Fund.*

Chapter 92, Laws of 1929, Section 2383. "In making the computation of license tax due, two per cent (2%) of the amount of such tax shall be deducted as an allowance for evaporation and other loss of gasoline handled by such dealer."

Amount deducted on gasoline tax paid by dealers from July 1, 1932
to June 30, 1934, 2% for evaporation and other loss \$147,771.97

Amount of gasoline sold United States Government agencies from
July 1, 1932 to June 30, 1934, on which no tax was collected,
3, 177,263 gallons, tax \$173,863.15

Total \$321,534.82

(See Panhandle Oil Co. vs. Mississippi, 277 U. S. 218)

If Drawback Fund is insufficient, State Treasurer shall transfer from Highway Fund. At end of fiscal year all money in Drawback fund is transferred to Highway Fund.

TAXATION OF MINES

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation mines are assessed by the county assessors at the price paid the Government therefor, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessments being based on verified statements filed with the board by the producers and allocated to the counties in which the mines are situated. The **taxable** value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of the full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries, and mines producing precious or semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Royalties are assessed direct to the persons receiving same and are valued for taxation purposes at the amount received **less** an allowance for the same depletion allowed by the federal government on income tax returns. There is also a provision for deduction of storage charge in cases where the royalty owner incurs that expense. The assessment is assigned to Class I, taxable at 100 per cent.

Mines License Taxes

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay direct to the state treasurer a **license** tax of five cents per ton on all coal mined; oil producers pay two per cent of the value of all oil produced; cement manufacturers pay four cents per barrel, plaster manufacturers pay five cents per ton, and metal mine operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of $\frac{1}{4}$ of 1%; the next \$150,000 or portion thereof pays a tax of $\frac{1}{2}$ of 1%; the next \$100,000 or portion thereof pays a tax of $\frac{3}{4}$ of 1%, and all over \$500,000 pays a tax of 1%.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1933 was \$36,350.75. In 1934 the amount payable is \$61,845.58. One-half of this revenue is credited to the general fund of the state, and one-half to the common school equalization fund.

CHAPTER 159

Revised Codes of Montana, 1921

CLASSIFICATION OF TAXABLE PROPERTY

1999. Classification of property for taxation. For the purpose of taxation the taxable property in this state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by Section 2565 of the Revised Codes of Montana (20900); also where the right to enter upon land to explore or prospect or dig for oil, gas, coal, or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, coal, oil or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds, boats and all water craft, harness, saddlery and robes.

*Class Three. Livestock, poultry and all agricultural products, stocks of merchandise of all sorts; together with furniture and fixtures used therewith.

Class Four. All land, town and city lots, with improvements, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana.

Class Five. All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities without any deduction or offset; provided, however, that the terms, moneys, and credits as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

*Class Six. The shares of stock of national banking associations and the moneyed capital employed in conducting a banking business by any other banking corporation, association or individual in this state. Such moneyed capital to be ascertained by deducting from the moneys and credits of such banking corporation, association, or individual, the amount of the deposits any any indebtedness representing money borrowed for use in said business, and the value of the shares of any national banking association, to be ascertained by deducting the value of all real estate of such association.

Class Seven. All property not included in the six preceding classes.

2000. Basis for imposition of taxes. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1. One hundred per cent of its true and full value.

Class 2. Twenty per cent of its true and full value.

*Class 3. Thirty-three and one-third per cent of its true and full value.

Class 4. Thirty per cent of its true and full value.

Class 5. Seven per cent of its true and full value.

*Class 6. Forty per cent of its true and full value.

Class 7. Forty per cent of its true and full value.

NOTE. From 1919 to 1926, national bank stock and moneyed capital of state banks was classified at 10 per cent of its true value. Due to court decisions such property was taxed at various percentages for the years 1927 and 1928. The law was amended in 1929, and since then such property is taxed at 30 per cent of full and true value.

Sec. 1711—Revised Codes of Montana, 1921. Classification of Counties. For the purpose of regulating the compensation and salaries of all county officers, and for fixing the penalties of officers' bonds, the several counties of this state shall be classified according to that percentage of the true and full valuation of the property therein upon which the tax levy is made, as follows:

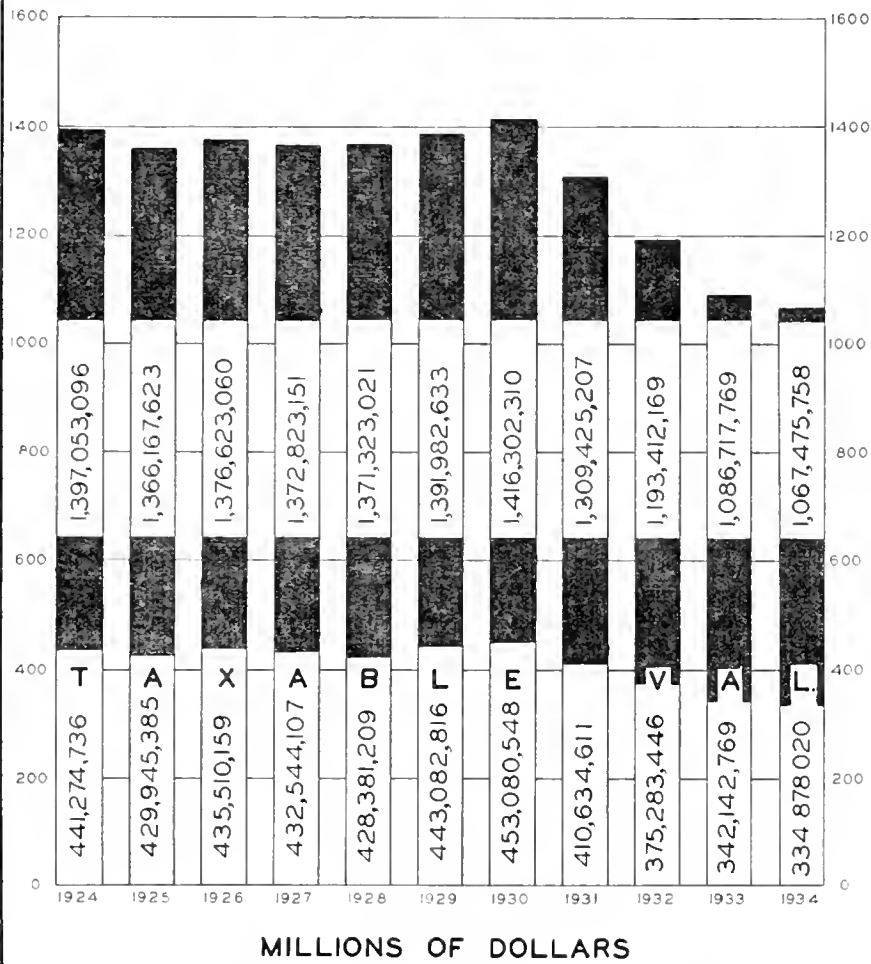

First Class. All counties having such a taxable valuation of fifty millions of dollars or over;
 Second Class. All counties having such a taxable valuation of more than thirty millions and less than fifty millions of dollars;
 Third Class. All counties having such a taxable valuation of more than twenty millions and less than thirty millions of dollars;
 Fourth Class. All counties having such a taxable valuation of more than fifteen millions and less than twenty millions of dollars;
 Fifth Class. All counties having such a taxable valuation of more than ten millions and less than fifteen millions of dollars;
 Sixth Class. All counties having such a taxable valuation of more than five millions and less than ten millions of dollars;
 Seventh Class. All counties having such a taxable valuation of less than five millions of dollars.
